Jo

I am on leave right now but we are finish with Newpark Drilling fluids. The last POLREP number 2 there should be a completion date on it I can look it up later I am at the airport now.

I show the Flow Chem Fire as finished as a PJ Start with an Enforcement Instrument, but not as a completion. I'll need to check with Alice on this one.

Pantego is complete.

I've not worked on Newpark, but the latest PolRep doesn't have a completion date. Can I assume the completion date is 7/20 as the PRP's contractor confirmed the cleanup had been completed?

Jo/Alice

Is there any information that you need for SEM on any of my site.
